EDUCATION

University of Buenos Aires

Licentiate in **Physics** (B.Sc. + M.Sc. equivalent), GPA 9.3 / 10.

March 2019 – April 2026

FCEyN — UBA

National College of Buenos Aires

High School diploma.

March 2014 – December 2018

CNBA — UBA

RESEARCH EXPERIENCE

BAISH Labs

Founding Team Member & Research Fellow

September 2026 - Present

Iliad Fellowship + Extension

Studying how language models infer latent personas from training data with a focus on minimum description length.

June 2026 - October 2026

Advisor: Stephan Wäldchen

SPAR Program

Investigating a geometry-based explanation of *subliminal learning* using steering vectors extracted as the difference between biased and unbiased activations.

February 2026 - May 2026

Advisor: Yuxiao Li

Dynamical Systems Lab (LSD)

Worked on Kolmogorov-Arnold Networks (KANs) for my thesis project to model dynamical systems as a more interpretable alternative to traditional Neural Networks.

February 2025 – December 2025

Advisor: Gabriel B. Mindlin

WORK EXPERIENCE

Performance Analyst — Avature

I developed and maintained statistical analysis tools in Python to gain insights from web server response times.

August 2024 – June 2026

Semi-Senior

QA Engineer — Avature

I analyzed database inconsistencies with SQL and developed automated tests using Selenium, JavaScript and PHP.

July 2021 – August 2024

Semi-Senior

TEACHING EXPERIENCE

Teaching Assistant — Iliad

Assisted a steganography for LLMs lecture.

August 2026

Science Museum Guide — Museo Participativo de Ciencias

Explained physics exhibits to visitors.

October 2019 – December 2019

COURSES & CONFERENCES

ILIAD Conference — San Francisco, USA

August 2026

Technical AI Safety Course — BlueDot Impact

January 2026

Deep Learning Spring School — FCEyN

October 2025

Generative Image Models Based on Deep Neural Networks — FCEyN

August 2025

Scientific Symposium on AI and Applications — UdeSA

November 2024 & September 2025

PAPERS

J. Szereszewski, F. Fainstein, L. E. Fernandez, G. B. Mindlin. (2026) *Inferring hidden forcing in a biological oscillator using Kolmogorov–Arnold networks*. arXiv:2606.08479.

CONFERENCE PRESENTATIONS

J. Szerezewski, N. Waehner, M. Smith. *Sparse Autoencoders for Interpretable Memory Retrieval in LLMs*. Poster presented at the Y-Hat Hackathon, FCEyN (December 2025). Buenos Aires, Argentina.

J. Szerezewski, F. Fainstein, L. E. Fernandez, G. B. Mindlin. *Kolmogorov Arnold Networks for the reconstruction of dynamical systems from data*. Poster presented at the Scientific Artificial Intelligence and Applications Symposium (SCIAA), UdeSA (September 2025); and the Deep Learning Spring School, FCEyN (October 2025). Buenos Aires, Argentina.

J. Szerezewski, F. Otero Zappa, A. Kleiman, M. Zanini, D. Grondona. *Design and Assembly of a Scalable Plasma Reactor for Water Remediation*. Poster presented at the Annual Reunion of Argentinian Physics Asociation (RAFA), UNSL (September 2024). San Luis, Argentina.

ACHIEVEMENTS

Hackathon Winner for the poster presented at the NLP track of the Y-Hat Hackathon (FCEyN-UBA). *December 2025, Buenos Aires, Argentina*.

Best Poster Award for the poster presented at the Deep Learning School (FCEyN-UBA). *October 2025, Buenos Aires, Argentina*.

Finalist at the National Stage of the Argentine Mathematical Olympiad (OMA). *November 2018, La Falda, Córdoba, Argentina*.

Nominated for the Metropolitan Argentine Mathematical Olympiad (OMA). *August 2018, Mar del Plata, Buenos Aires, Argentina*.
