

JULIÁN SZERESZEWSKI

🌐 julianszere.github.io | ✉ julianszere@gmail.com | in [julianszereszewski](#) | 📷 [julianszere](#)

EDUCATION

University of Buenos Aires Licentiate in Physics (B.Sc. + M.Sc. equivalent), GPA 9.3 / 10.	March 2019 – April 2026 <i>FCEyN — UBA</i>
National College of Buenos Aires High School diploma.	March 2014 – December 2018 <i>CNBA — UBA</i>

RESEARCH EXPERIENCE

BAISH Labs Founding Team Member and Research Fellow of the Buenos Aires AI Safety Hub Laboratory.	September 2026 - Present
Iliad Fellowship + Extension Studying how language models infer latent personas from training data with a focus on minimum description length.	June 2026 - October 2026 <i>Advisor: Stephan Wäldchen</i>
SPAR Program Investigating a geometry-based explanation of <i>subliminal learning</i> using steering vectors extracted as the difference between biased and unbiased activations.	February 2026 - May 2026 <i>Advisor: Yuxiao Li</i>
Dynamical Systems Lab (LSD) Worked on Kolmogorov-Arnold Networks (KANs) for my thesis project to model dynamical systems as a more interpretable alternative to traditional Neural Networks.	February 2025 – December 2025 <i>Advisor: Gabriel B. Mindlin</i>

WORK EXPERIENCE

Performance Analyst — Avature I developed and maintained statistical analysis tools in Python to gain insights from web server response times.	August 2024 – June 2026 <i>Semi-Senior</i>
QA Engineer — Avature I analyzed database inconsistencies with SQL and developed automated tests using Selenium, JavaScript and PHP.	July 2021 – August 2024 <i>Semi-Senior</i>

TEACHING EXPERIENCE

Teaching Assistant — Iliad Assisted a steganography for LLMs lecture.	August 2026
Science Museum Guide — Museo Participativo de Ciencias Explained physics exhibits to visitors.	October 2019 – December 2019

COURSES & CONFERENCES

ILIAD Conference — San Francisco, USA	August 2026
Technical AI Safety Course — BlueDot Impact	January 2026
Deep Learning Spring School — FCEyN	October 2025
Generative Image Models Based on Deep Neural Networks — FCEyN	August 2025
Scientific Symposium on AI and Applications — UdeSA	November 2024 & September 2025

PAPERS

J. Szereszewski, F. Fainstein, L. E. Fernandez, G. B. Mindlin. (2026) *Inferring hidden forcing in a biological oscillator using Kolmogorov–Arnold networks*. arXiv:2606.08479.

CONFERENCE PRESENTATIONS

J. Szerezewski, N. Waehner, M. Smith. *Sparse Autoencoders for Interpretable Memory Retrieval in LLMs*. Poster presented at the Y-Hat Hackathon, FCEyN (December 2025). Buenos Aires, Argentina.

J. Szerezewski, F. Fainstein, L. E. Fernandez, G. B. Mindlin. *Kolmogorov Arnold Networks for the reconstruction of dynamical systems from data*. Poster presented at the Scientific Artificial Intelligence and Applications Symposium (SCIAA), UdeSA (September 2025); and the Deep Learning Spring School, FCEyN (October 2025). Buenos Aires, Argentina.

J. Szerezewski, F. Otero Zappa, A. Kleiman, M. Zanini, D. Grondona. *Design and Assembly of a Scalable Plasma Reactor for Water Remediation*. Poster presented at the Annual Reunion of Argentinian Physics Asociation (RAFA), UNSL (September 2024). San Luis, Argentina.

ACHIEVEMENTS

Hackathon Winner for the poster presented at the NLP track of the Y-Hat Hackathon (FCEyN-UBA). *December 2025, Buenos Aires, Argentina.*

Best Poster Award for the poster presented at the Deep Learning School (FCEyN-UBA). *October 2025, Buenos Aires, Argentina.*

Finalist at the National Stage of the Argentine Mathematical Olympiad (OMA). *November 2018, La Falda, Córdoba, Argentina.*

Nominated for the Metropolitan Argentine Mathematical Olympiad (OMA). *August 2018, Mar del Plata, Buenos Aires, Argentina.*
